

Peru Alpert

REACT NATIVE DEVELOPER

[01277444422](tel:01277444422) • peroalbert@gmail.com • perualpert.github.io • Cairo, Egypt

SUMMARY

- React Native Developer with 5+ years of experience, specializing in AI-accelerated development and modern coding methodologies.
- Built efficient mobile apps across various projects.
- Strong problem-solving skills for timely delivery.
- Worked on projects alone and collaborated on projects as a team member.
- Delivered a React Native app that resulted in a 20% increase in user engagement (Twitter posts, Facebook reaction, story, reel, ads system, dark mood and live stream using Agora).

PROFESSIONAL EXPERIENCE

React Native Developer | HighHigh | Feb 2023 – Apr 2026

HighHigh is a social media and marketing platform focused on user engagement and interactive content creation.

- Developed and implemented multiple user stories and core application features.
- Built reels and short-form video functionalities to enhance user engagement.
- Integrated real-time chat using Gifted Chat.
- Developed social interaction features, including Twitter-style posts and Facebook-like reactions.
- Implemented live streaming capabilities and media handling features.
- Enhanced user experience through advanced animations and smooth UI interactions.
- Integrated image and video picker functionalities for media sharing.
- *Technologies & Features:* React Native, Live Streaming, Animations, Video Processing, Media Picker, Real-Time Chat.

React Native Developer | Rescounts | Feb 2022 – Nov 2024

Rescounts is a restaurant reservation platform designed to help users reserve tables and avoid waiting lines at restaurants.

- Developed restaurant reservation and booking functionalities.
- Implemented date & time picker features for reservation scheduling.
- Built dynamic and optimized SectionList-based interfaces.
- Integrated Stripe payment gateway for secure online transactions.
- Implemented Google Maps and real-time location services.
- Improved application usability through custom animations and responsive UI components.
- *Technologies & Features:* React Native, Stripe, Google Maps API, Geolocation, Animations.

React Native Developer | Modern Motors | Jan 2021 – Mar 2021

Modern Motors, established in 1975 as part of the Saudi Investment Group, provides automotive services including car showcases, booking services, and dealer location management.

- Developed interactive 3D car model features.
- Implemented multilingual support and localization features.
- Integrated map and location-based services for dealer navigation.
- Enhanced UI/UX with animations and interactive components.
- *Technologies & Features:* React Native, 3D Models, Localization, Geolocation, Animations.

React Native Developer | WinWin | Aug 2019 – Mar 2020

WinWin is a service-based platform offering annual subscription services across multiple categories.

- Participated in the development and maintenance of mobile application features.
- Contributed to delivering a smooth and responsive user experience across platforms.
- Collaborated with the development team to enhance application performance and usability.

FREELANCE PROJECTS

- Developed and launched diverse full-cycle mobile applications for various domains, including sports field booking and tournament management (Riadi app), location-based utility and product services (MG Plumbers), an e-reader (Rida), and an e-commerce platform (اوفر جمله), demonstrating versatility in React Native development.

EDUCATION

- **Shrouk Academy** - Bachelor of Computer Science (09/2016 – 07/2020), Grade: Excellent
- Graduation Project: Object detection (classification).

SKILLS

- **Core:** React Native, Redux Toolkit, React Navigation, TypeScript, Git, RESTful API.
- **Features/Libraries:** Animations, Gifted Chat, Agora (live streaming), i18next (localization), Video Processing, Media Picker, Google Maps API, Stripe, 3D Models, multi-slider.
